About EFFI CYCLE

“EFFI CYCLE” derived from Efficient-Cycle promote the objective of providing opportunity to the students to conceive, design and fabricate a three wheel configuration vehicle powered by human-electric hybrid power and capable of seating two passengers catering to the day to day mobility needs. The vehicle must be aerodynamic, engineered for performance & safety and ergonomically designed. The objective is to promote innovation and generate consciousness amongst the young engineers towards environment friendly mobility solution.

Team Structure:

Student Members: Minimum 5 to maximum 13 student members/team

Faculty Advisor: One faculty advisor/ team must be appointed by College/University.

Eligibility:

All participants must be enrolled in undergraduate degree programs under any engineering disciplines.

Organised & Supported by

**MARUTI
SUZUKI**
