## The Cybersecurity Polyglot Project

NuHarbor Hackathon

Nuharbor Hackathon is to develop a means of translating data from this highly heterogeneous mix into a single representation so that security management tools can either request or automatically ingest information that is consistently formatted though derived from multiple, heterogeneous, sources.

There are attractive prizes to be won!

First Place: USD 10000
Special Prizes: Notable Entries (5) USD 1000

IDEA SUBMISSION

STARTS ON:
Jan 01, 2023

ENDS ON:
Feb 24, 2023
