Saviynt Java Engineer Hiring Challenge

ABOUT CHALLENGE :

Saviynt was created to challenge the status quo. We always realized that identity could be so much more – and the leading solutions weren't up to the task. So we set out to build the most innovative cloud identity & access governance platform on the market. It hasn't always been easy, but we're here to solve challenges, not hide from them. Today we've grown into a global organization scaling at breakneck speed to help the largest enterprises in the world transform their identity programs and protect their people, assets, and infrastructure.
