Invent a Product in 6 Weeks

A LOT CAN HAPPEN IN 6 WEEKS

A six-week intensive summer program in inventing where students work in teams from Science, Engineering & Design Institutes across India.

The program originated in the U.S. and will run for the fifth time, simultaneously, at **IIT Bombay, IIT Gandhinagar, and IIT Jammu**. In one summer, students will learn how to prototype and pitch their idea from scratch and file a provisional patent in India and the US. Students from all over India, collaborate in teams of two to compete for prizes under 'Best Innovation'
