

UDYAM'22

Event Name	Description	Icon
MOSAIC	Computer Vision based event with motion tracking etc.	Eye
CASSANDRA	A data science event, a model that optimizes on the data provided	Brain
DIGISIM	Designing of complex digital circuit to gain analytical solution	Chip
FUNCKIT	Hardware based problem solving event	Chip
SPYBITS	Cryptography based event based on encryption and decryption	Key
COMMNET	Creating an optimised solution for communication	Speech bubble
CONTINUUM	Use of analog components in simulation on varying quantities	Infinity symbol
ICHIP	Verilog HDL based event with FPGA implementation	Chip
XIOTA	Extreme IOT Application	Network
